

The HydroForce, the newest addition to Guardair's line of safety air guns, combines compressed air and standard municipal utility water, creating a powerful, turbulent air/water jet stream, perfect for heavy duty cleaning.

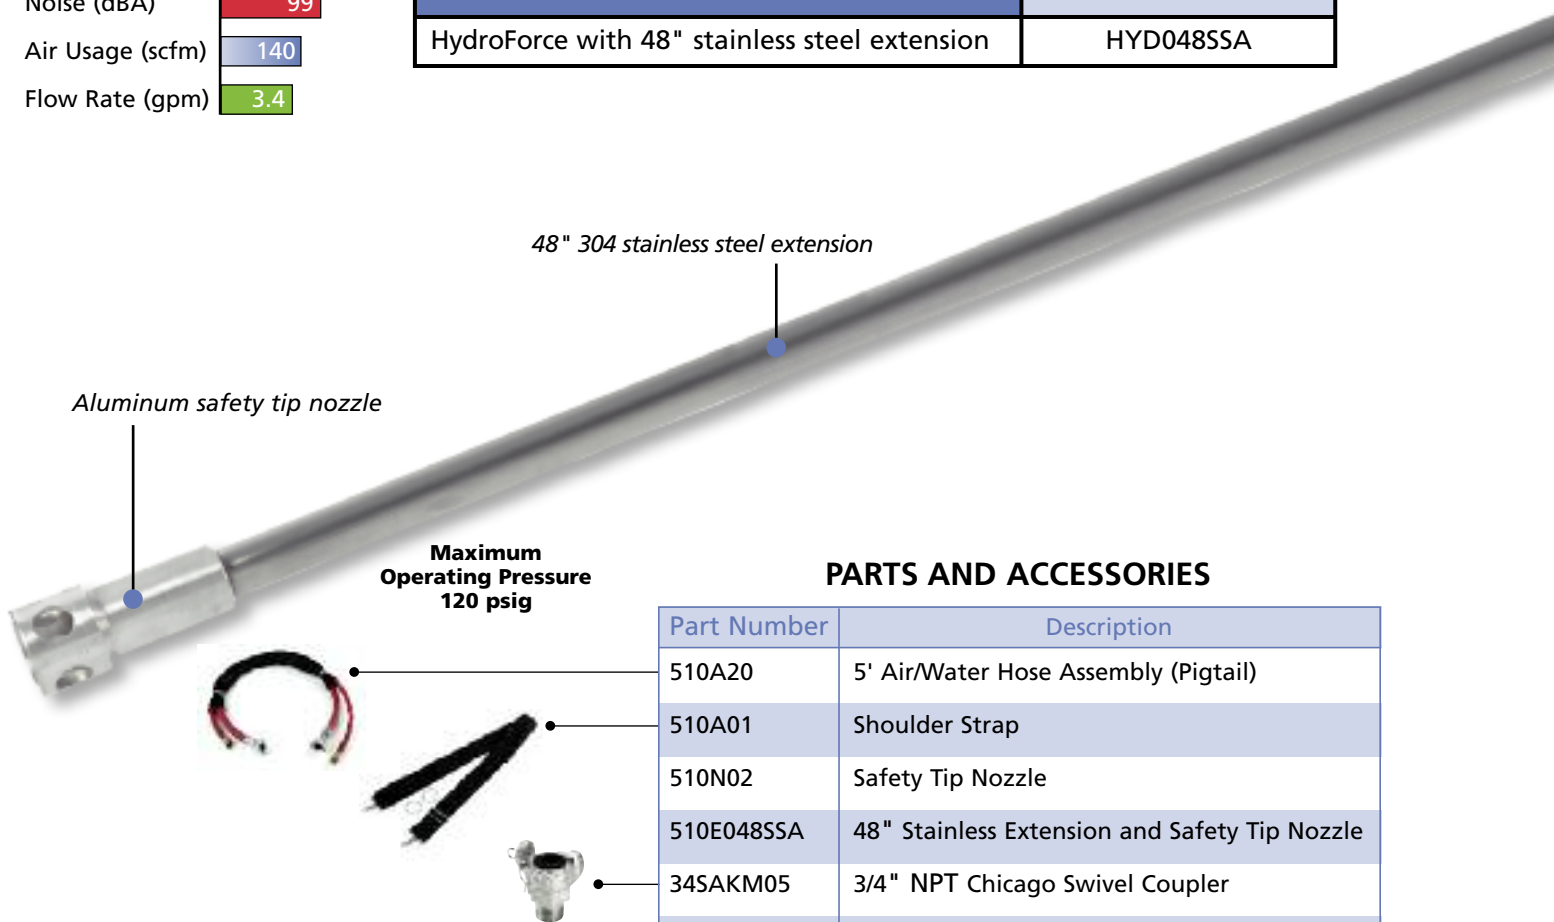

## NO Power Package, NO Pressure Unit, NO Electricity, NO Gasoline Required

- One trigger operation
- Hot or cold water capable
- No duty-cycle limitations
- Virtually no maintenance required
- Lightweight and fully portable
- Rugged, all metal construction

### Meets or Exceeds OSHA Standards

Thrust (lbf)	13.5
Noise (dBA)	99
Air Usage (scfm)	140
Flow Rate (gpm)	3.4

<b>HYDROFORCE</b>	Part Number
HydroForce with 48" stainless steel extension	HYD048SSA

Aluminum safety tip nozzle

48" 304 stainless steel extension

Maximum Operating Pressure 120 psig

### PARTS AND ACCESSORIES

Part Number	Description
510A20	5' Air/Water Hose Assembly (Pigtail)
510A01	Shoulder Strap
510N02	Safety Tip Nozzle
510E048SSA	48" Stainless Extension and Safety Tip Nozzle
34SAKM05	3/4" NPT Chicago Swivel Coupler
510K01	Shuttle Valve Maintenance Kit
500K01	Valve Repair Kit

Always wear personal protective equipment including safety goggles when using air guns.

**Combines the Forces of  
Compressed Air and Water  
for Incredible Cleaning Power!**

**Ideal for Cleaning:**

- Floors and Walls
- Construction Equipment
- Heavy Machinery
- Shipboard and Marine Equipment
- Roadway Surfaces
- Tanks and Storage Areas
